If the initial term is less than 12-months, the premium (not the fees) will be prorated. The minimum initial policy term is 6 months. Any minimum premium applicable to this program still applies.

Direct bill premium invoicing is available. An \$8 service fee is added to all installment payments, but not the initial down payment. The service fee is reduced to \$2 if installments are paid electronically using automatic payments.

4. Other Insurance

Other insurance covering the same property is permitted only when the other insurance is for perils not covered by the policy issued pursuant to this program. For example, flood insurance is permitted.

5. Application and Binding

All application questions must be fully completed by the producer and the applicant. After the policy has been bound and a policy number has been issued, the application must be signed by both the producer and the applicant. The application and any supporting documentation must be maintained by the producer and is subject to current submission procedures. The Aegis electronic application must be used for all new business. Please contact customer service with any questions.

6. Inspections, Policy Fees and Minimum Premiums

A. Inspection Schedule

An inspection is performed on all new Homeowner and Unit-Owner policies. Follow-up inspections are performed on all Homeowner renewal policies and on every other Unit-Owner renewal.

B. Policy and Inspection Fees

There is a \$25 policy fee charged for each new and renewal policy. In addition, when an inspection is performed, there is a \$40 inspection fee charged. All fees are fully earned and non-refundable. Please understand that binding or submitting a policy triggers hard costs to the company. It is important to adhere to all underwriting rules. Please also be sure to inform your client when an inspection will occur.

C. Minimum Premiums

The minimum written premium, not including fees, is:

1. Homeowner policy: \$300
2. Renter policy: \$150
3. Unit-Owner policy: \$150

7. Catastrophe Management and Capacity Restrictions

A. Catastrophe Management

In order to effectively manage large-scale events and protect all policyholders, the company may from time to time establish restrictions on binding authority, solely at the company's discretion. When binding authority is restricted, no applications for new policies will be accepted. In addition, requests to change coverage to existing policies in the restricted area that have the effect of increasing the company's exposure will not be allowed. Such restrictions will not impact normal policy renewals.

These restrictions are triggered automatically whenever an earthquake registering 5.0 or greater in magnitude on the Richter scale occurs and impacts all business within 150 miles of the epicenter of the earthquake for 30 days or until such time as the restrictions are lifted by the company. Additionally, these restrictions exist anytime a risk may reasonably be impacted by a proximate event, such as flood, wildfire or other catastrophic event, whether natural or man-made.

Please be mindful of restrictions when submitting business or requesting changes to existing policies. Aegis will make every attempt to provide timely updates on the company's website as events unfold that trigger restrictions.

B. Capacity Restrictions

In order to manage geographic concentrations, overall portfolio exposure and reinsurance, the company may from time to time establish restrictions on binding for new policies, or the issuance of renewals.
